Check 5**Making Polygons**

Jane put two pattern-block triangles together and traced around them to make a polygon.

This is what her polygon looked like.

Make as many different polygons as you can, using 4 pattern-block triangles.

Use your Pattern-Block Template to record 3 of your polygons.

Use 4 pattern-block triangles to make a shape that is NOT a polygon. Use your Pattern-Block Template to record your shape.

Explain how you know your shape is NOT a polygon.
